MEASURES AND DECISIONS FOR STUDENTS AND EMPLOYEES FOR THE ACADEMIC YEAR 2020/2021 AT UPJ IN KOŁCZ

Penn uphs intranet.

His life is Penn's minor Medicine is one of the 10 best hospital systems in the United States. Few hospitals from the world can bring hope to patients whose options are limited by conventional medicine. Penn Medicine is leading the most medical care of those peers, since they continue to fulfill the promise that advanced medicine offers patients. Although they are nationally renowned, their facilities are located in a dense metropolitan area with a large number of local health centers, so the Penn message needed to communicate its position as a line without becoming inaccessible. The campaign created a central theme focused on the results of the patients, relating the value of a life such as the value of penis medicine à € "Each patient deserves that opportunity. He stressed that universal emotional connection patients have their physical quality improved and extended through science and medicine that offers healing. Playing the advanced diagnostic, therapeutic and procedural penal care that provides hope and healing to its patients, the campaign dominated the markets of Philadelphia and New Jersey of the South through printed media, out of home, digital and radioly. SERVICES PUBLICITYMOTION & AMP; Video Design Web away from home every day, the programs of national renown centers and cardãaco of Penn Medicine create scientific advances that bring hope to patients whose options are limited by conventional medicine. Charley created a television and radio campaign for both programs, as well as a hymn for the general health system. The television gave us space to tell more long stories of patient trips, each focused on the importance of winning for more time with the people we love, is the heart of Penn Medicine's promise. The cornerstone of the campaign is what more The Penn health system: the science of advanced medicine and the hope that it brings seriously ill patients. Your life is Pensian medicine. Charley Charley A design system that defined advertising, running through two channels to communicate the central message. We describe it as the right and left brain of your life is the medicine of the Penn Worth. The photograph was used to differentiate between the two sides of the campaign. For lifestyle executions, black and white photography was used to represent the moments and relationships that emphasize emotionally why their life is Penãnsula medicine. Scientific executions use abstract images to represent the different elements of Penn's advances in advanced medicine. GRANFIC Callouts in bright colors were used throughout all scientific test points to support campaign messages. The abstract photography became very powerful in telling the history of advanced medicine when used in environments away from a large scale home. It was crucial for the entry of the promise of the brand of having entrance throughout the organization, from executives, more dicos, nurses and more to staff of the facilities. Everyone has an impact, no matter how large or small. Charley used the Penn Medicine intranet platform to create a mini site where employees could learn about how to better deliver the brand promise and honor the values that the campaign sought to highlight. A large part of this effort was a section dedicated to stories of À © xito of patients and clinical advances, where the staff could contribute their own memorable moments and highlight the contributions of their team. Provide a space in which employees can collaborate with the campaign and between Sã built continuous pride and value in their work.
